

Mobile Offerings

Our hardware and software solutions for video conferencing enable you to take personal collaboration on the road.

Jabber Video

Cisco Jabber Video for TelePresence (Jabber Video) is an application that extends the reach of telepresence. Jabber Video works with a compatible PC or Mac and a webcam or Cisco TelePresence PrecisionHD camera to communicate with more people, on more devices, from more places.

Skype For Business

Connect your teams with the experience they love in the Office applications they use every day. Now, with Skype for Business you can simplify your infrastructure with one platform for calling, conferencing, video and sharing.

Logitech C930E Webcam

Experience video calls that are the next best thing to being there in person. Sophisticated technology in the Logitech C930e Webcam delivers clear video and sound in any environment, even low-light conditions. With 1080p high-def, H.264 video compression and a wide 90-degree field of view, C930e is our most advanced webcam yet.

Looking to order video conferencing equipment for yourself or another user? Tell us briefly about your situation or project and we'll follow up.
